EXPERIENCE

DRIVEN MEDIA GROUP, HUNT VALLEY, MD

WEB DEVELOPER / WEB DESIGNER
(JAN 2019 - PRESENT)

Responsible for creating a responsive design and layout of a Wordpress site by utilizing various plugins and custom contents built using clean coded HTML5, CSS, JavaScript.

What happed:

- Create wireframes and prototypes using design tools such as Photoshop, Adobe XD, Sketch and Figma.

- Utilizing elementor along with HTML5 and CSS to create wordpress sites.

- Daily responsibility include creating custom landing pages/blog posts for various automotive client's website.

GROOVE COMMERCE, BALTIMORE, MD

WEB DEVELOPER INTERN
(JUN 2018 - AUG 2018)

Worked alongside other developers to create a web application that utilizes BigCommerce API to design a more user-friendly 301 redirects page for BigCommerce.

What happened :

- Design the wireframe and user interface for the application by analyzing the current issue with the existing application and what the user required.

- In charge of the backend for handling the 301 redirects data (CRUD, Search, Sort).

- Collaborated on the frontend for the entire application.

- Utilized Laravel framework, SQL, HTML, CSS to develop the application.
